

KDS EZFlow 2030 Portable Syringe Pump

The new KD Scientific EZFlow Pump Series, is a line of economical pumps for simple infusions and dosing applications. The pumps are designed to combine high levels of performance together with ease of use and reliable operation. KD Scientific EZFlow products offer a complete line of pumps to meet many different applications. Micro-infusion pumps, volumetric infusion pumps, syringe pumps, portable pumps and disposable pumps are available at affordable prices.

KDS EZFlow 2030 is a small, light and completely portable syringe pump. It is designed to deliver small volumes with a linear flow rate of 1 - 99 mm per/hr with $\pm 2\%$ accuracy and can be used in a wide variety of applications. It is cost effective and the most compact and lightest pump in its class.

This portable, user friendly syringe pump offers a new alternative for micro reliable infusions. It can accommodate a wide variety of plastic syringes from 1 ml to 60 ml. Ergonomic, easy to use, horizontal design protects the syringe barrel and allows single-handed loading.

The syringe pump has a Bolus function which allows the user to add $\frac{1}{4}$ of preset fluid by bolus cable, without interruption of current infusion at a minimum of 30 minute intervals. There are two audible and visual alarms, complete occlusion and low battery.

The KDS EZFlow 2030 uses 3 AA batteries. The battery length is 30 days or more than 30 syringes at intermed flow.

It can also operate on DC 4.5V power supply. It comes complete with bolus cable, syringe cover protector, leather case and batteries.

The KD Scientific offers a family of syringe pumps to meet all applications. The full line of KDS pumps include a simple syringe infuse only pump, a multi-syringe infuse and withdraw pump, push pull pumps, continuous pumps for uninterrupted fluid delivery, nonoliter pumps, emulsifier, high pressure and custom OEM pumps.

KD Scientific is renowned for its unsurpassed quality. We continue to provide superior quality products to our customers all around the world.
