NEW PRODUCT RELEASE

The Next Generation in Syringe Pumps!

The NEW Legato 200 Series from KD Scientific is the next generation of syringe pumps.

The Legato 200 Series offers unparalleled ease of use through the high resolution color touch screen user interface. The full touch screen interface enable the user to quickly create configurations and recall them for easy use. The intuitive run screen combines multiple parameters simultaneously with internationally recognized graphic Icons which allow the Legato 200 series to provide a new level of intuitive syringe pump operation.

Three basic models ensure the right pump for your application. Infuse only, Infuse and Withdraw and Push Pull.

Each of these pumps is available in a programmable version for maximum flexibility and capability.

Each of the basic models work with one syringe or two and can be reconfigured in the field to use with multiple syringes.

The Legato Series optimizes laboratory bench space. For limited laboratory space the Legato 200 Series can be placed on its side to reduce the footprint by 4 Times. The footprint is only 3.5 in x 9.75 in. The display also tilts with the change to allow the user operate the pump vertically.

KD Scientific designs, manufactures and sells a range of quality fluidics equipment used by research laboratory markets worldwide.

KD Scientific syringe pumps are an economical solution to delivering precise and smooth flow in research, pilot plants and production applications. They are recognized worldwide for quality, accuracy and reliability. A broad line of syringe pumps are offered: from a simple one syringe infuse only, to a programmable multi-syringe infuse/withdrawal pump. **KD Scientific** operates as a separate business within Harvard Bioscience at their Holliston, Massachusetts facility.
